Terms and Conditions

All mail orders must be accompanied with

All mail orders must be accompanied with CASH unless otherwise agreed upon.
All orders sold through our agents to be paid for upon delivery of the stock at purchaser's Railroad station or delivery point. We pack all orders free, and pay Freight or Express to any railroad station in the Middle-West, except on small mail orders amounting to less than \$5.00. 50 trees of one kind, as 50 apple or 50 peach, at 100 rate, 500 at thousand rate; less than 10 the "Each" rate governs.

Season of Delivery

We begin digging and packing fall orders about October 15th, and continue shipping until freezing weather. Some seasons as late as December 15th. Spring shipments begin about March 1st to 15th and continue until May 1st.

T. R. PEYTON, Business Manager

Early Mail Orders

It is important that you place your order early, and for the benefit of those who do not care to spare all of the money when the order is sent, we will accept 10 per cent with order, and reserve the stock for you. Balance to be sent when you order the stock shipped.

Our Guarantee

We pack all orders in first class condition, and guarantee safe arrival. Any order lost or spoiled in transit, we refill free.

We limit our varieties to the best standard sorts. Our varieties are pure and true to name, but should any mistake occur, we do not hold ourselves responsible for a greater amount than the purchase price.

References

We have been engaged in the Nursery Busi-We have been engaged in the Nursery Business for over a quarter of a century, and conduct our business strictly along creditable lines. We are pleased to refer you to The Central National Bank, Farmers Bank, Citizens Trust Co., Commercial Bank or any business firm in Boonville, or any leading Nursery in the United States with whom we have done business. We grow trees in large quantities, and sell to the largest Nurseries in the country the country.

Unsolicited Testimonials

Trees received, and are a nice lot, with fine roots. It is a pleasure to receive trees taken up and handled like these.

Gabe Long, Howard County, Mo.

The trees reached me yesterday. They are in prime condition, and the best trees I ever saw. I know the land on which your Nursery is, having seen it hundreds of times. There on the Missouri river, them Pawpaw, Grapevine and Butterout flourish from high water mark to the top of the bluffs There is the best land in the world.

W. H. H. Allison, Albuquerque, New Mex.

I received the trees in fine condition, and I think they are as fine a lot of trees as ever came in here. Russell Cober, Hesperia, Mich.

I feel you have treated me fairly and right. And when in need of more nursery stock you shall have my orders as well as my influence if I have any. N. H. Gentry, Sedalia, Mo.

I bought some trees from your nursery last spring that have proved quite satisfactory and I should like to buy some more from you. Please let me hear from you as soon as convenient.

Prof. J. C. Jones.

Missouri University, Columbia, Mo.

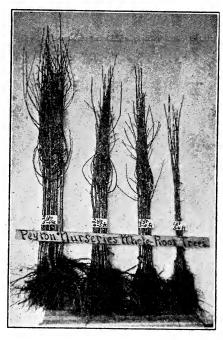

Important

All varieties of fruits are arranged according to season of ripening. The earliest ripening sorts first, following with the next earliest throughout the season. The season of our apples extend from the early summer sorts to the latest winter keepers which will keep nearly until new apples ripen the next summer.

Number of Trees Sufficient to Plant an Acre.

Rule—Multiply the distance in feet between rows by the distance between the trees in the row and divide into 43,560 the number of square feet in an acre.

Apples—First Choice Varieties (Whole Root)

All budded or grafted on Whole Root stocks. Varieties starred thus (*) are for home use only. All other sorts are the very best leading commercial sorts and should be planted in large quantities—for profit.

Small and medium trees are being planted by the largest orchardists in preference to large overgrown old trees, because they come into bearing just as quick and make long-lived orchards.

Retail	an	id W	hole	sale	Prices	Each	10	1 00	1000

Apple,	2	year	5-6	feet		.40c	3.50	35	300

Early Harvest-(*) Good old variety for family use only—July 1st.

Red June—(*) Medium size, flesh white, about July 1st.

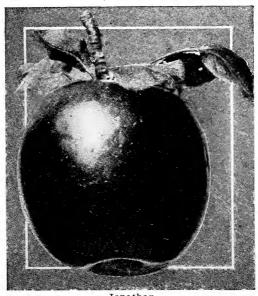

Yellow Transparent—This is a valuable apple for family use and market.—July.

Benoni-Early red summer, qualit- fine One of the best.

Duchess-(Oldenburg) medium to large size, streaked with red hardy and productive-Aug. 1st.

Sweet—Yellow, summer, sweet, good quality.

Maiden Blush—Large, yellow with blush cheek-Family and market August 15th.

Jonathan

Wealthy—Large size, almost red, streaked. tree hardy and very productive. One of the finest market sorts. Last of August.

Rambo*—Medium size, streaked with dull red. Productive September and October

Rome Bty.—Large, shaded with red streaks, fine quality, October to January.

Jonathan—This is one of the finest red market sorts, and commands high prices every year, and on any market November to January.

Grimes Gol.—Medium yellow, very fine quality, and commands high prices everywhere as a commercial sort. November 15th to January 15th.

Talman Sweet*—Light yellow with a soft blush—rather attractive for a yellow apple. A splendid winter sweet and a good cooking apple. Tree a good grower, long-lived and very hardy; is a reliable cropper and comes into bearing at an early age.

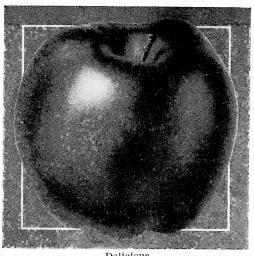

Huntsman-Large flat yellow, fine quality, November to February.

Missouri Pippin-Medium to large, quality fair, early bearer. December to April.

Gano—Large red similar to Ben Davis. Largely planted for commercial purposes. Trees hardy and productive. December to April.

Ben Davis-Too well known to need any description or recommendation. And, while not as good quality as Jonathan, Grimes Golden, Huntsman, etc., for eating, it is a good all-purpose apple for both family use and market.

Blk. Ben Davis-This is the finest market apple of the Ben Davis family. A barrel filler and a money maker. December to April.

Delicious

Delicious—"The Quality King and commands the highest prices of any apple ever introduced. The leading commercial money-maker. December to April.

York Imperial—Large, lop-sided; yellow ground shaded with dull red. Tree hardy and productive. succeeds best on thin up-land. December to April.

Stayman Winesap-Very large; superior to old Winesap in every way. Tree vigorous and productive. Quality the finest, and a money maker. December to April.

Wine Sap—Medium size; dark red; fine quality. December to May.

Mammoth Black Twig—Large, dark red; similar to Winesap, but flatter in shape. Flesh yellow, mild sub-acid, and a good keeper. Tree vigorous and spreading.

Geniton (Ralls Janet)—Medium to large; green streaked with red, an old standard family sort. Quality fine. Juicy. December to May.

Ingram—This is the finest apple of the Geniton family. Redder than Geniton. Thee upright, productive and one of the finest late commercial sorts. January to June.

Crab Apples—Transcendant and Hyslop, at same price as other apples. Season, late summer and fall.

Pear

Retail and Wholesale Prices Each	ch 10	100	1000

Alexander—Medium size, nearly covered with red; sweet, semi-cling. July.

Greensboro—Large, almost red; rich and sweet; July. Freestone.

Carman—The finest early market peach in the world. Almost as large as Elberta. Freestone; skin pale yellow with blush; flesh white, tender, melting, with rich sweet flavor. Ships well. July 15th to 20th.

Champion—Very large, white free stone with blush. The "Champion" of all peaches for hardiness. Has stood 18 below zero and borne full crop. Quality the finest, and a money maker everywhere. August 10th.

Crosby—Medium to large, orange yellow covered with red; sweet: tree hardy and productive. August freestone.

Capt. Ede—This is yellow freestone, very much like Elberta, except not quite as large. Quality fine. August 15th.

Fitzgerald—Large yellow freestone. A seedling found at Oakville, Ont., where it stands the winters perfectly. Quality first class. August 15th.

Foster—Deep orange red, sweet and juicy; large-

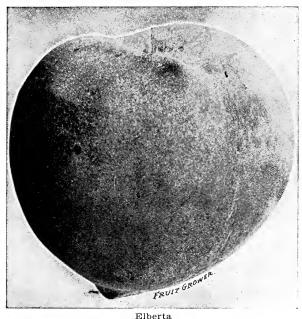

August. Freestone.

Elberta—The Queen of all yellow freestone commercial peaches. Rot-proof and a money maker. Finest shipper known. August 20th.

Crawford Late—Fruit largest size, skin yellow with blush. One of the best yellow freestones; pro-August 25th.

Stump-Very large; round white freestone with red cheek; fine quality. September 1st.

Chinese Cling — Large, white clingstone. Fine quality Last August 1st-September.

Dewey Cling—Superior to Heath in every respect. Very juicy and rich. Won the Silver medal at Omaha, and Bronze Medal at Buffalo Expositions. Large, creamy white. September 15th. tions. Large, creamy white.

Ortiz—A large white cling about the size of Elberta. Tree very hardy and productive Sweet, rich and juicy. We are the exclusive growers of this excellent peach. September 20th.

Henrietta—Large yellow cling; covered with red. Hardy and productive. Always commands fancy prices Similar to Indian Blood Cling. September

Heath Cling-The old standby. Large, creamy white; quality fine. Tree hardy and productive. October 1st.

Salway—The finest late yellow freestone. Very large; quality the best. A great market sort and a money maker. October.

Strawberry Plants

Packing strawberry plants with other nursery stock is a failure. We grow the best standard sorts, and sell direct to planters at \$2.80 for 200, \$8 per 1,000, 500 at thousand rate, express prepaid. No order accepted for less than 200 plants, and shipments will not be made for summer planting. Spring is the best season for planting, but we will accept orders for fall planting. Orders must be made on separate order sheet from all other kinds of stock, as they have to be packed separate and shipped by express.

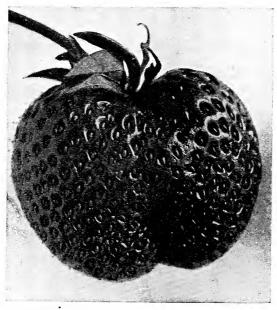

Varieties—Aroma, Gandy, Senator Dunlap, Hav-

erland, Warfield.

Strawberries

(S) Staminate or Perfect Bloomer(P) Pistillate or Imperfect Bloomer

Senator Dunlap (S)—This is the leading strawberry throughout the United States. We sell more Senator Dunlap plants than any other variety, and

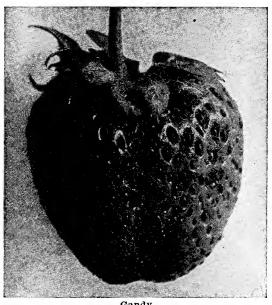

Warfield

the demand for this variety has steadily increased every year since its introduction. It does well everywhere and produces enormous crops of fine fruit regularly. Senator Dunlap is of the varfield type, has a perfect blossom, is hardy, productive, a splendid keeper and able to hold its own under any "rough and tumble" methods of culture to which it is likely to be subjected.

Warfield (P)—This is the grand berry for main crop, both for home use and market. We recommend Warfield fertilized with Senator Dunlap for most profitable strawberry crop you can grow if you have a good market for medium early berries.

Warfield is and has been the leader for years. Fruit is regular shape, rark red and a splendid shipper. We sell more plants of this than of any other variety, exception Senator Dunlap.

Haverland (P)—Exceedingly productive; fruit large and very fine; one of the most popular and well tested varieties; withstands drouth better than most kinds; color light, season early. Considered throughout the United States as a money maker in almost any climate. Demand for plants has always been much larger than the supply. You will not miss it in buying some Haverland. They are a good sure berry. Bought largely for main crop all over sure berry. Bought largely for main crop all over the country. They make a good sized fruiting row

Gandy

and mature an immense amount of fruit which is very easy to pick, being plainly in sight. We cannot say too much in their favor. Try them and you will agree with us

Gandy (S)—This is one of the leading late varieties with fruit growers all over the country. plant is a strong grower, fruit is large and firm, but does not yield as heavy as some; requires strong soil and fertilizers to do its best. It is very late and a big showy berry. Gandy is always quoted at the highest price in every market It is the finest looking fruit and sells quickly at top prices. You will not make a mistake if you plant some Gandy for late fancy berries. We have a fine stock of heavy rooted plants.

Aroma (S)-This is our best and most profitable late strawberry. Aroma, we think is known all over the country as the finest and most profitable of the very late varieties of strawberries. We will guarantee the fruit or Aroma to please all who give it a fair trial. It cannot well be beaten for quantity of fruit produced or in quality of fruit.

Hardy Climbing Roses

The home beautiful is always more so when the yard, the walks, a trellis and porch carries

the hardy perennials in roses—roses red, pink and white.

Then the home becomes a bower, the air is sweet with fragrance, the eye is delighted with color, and life and living is happier because these masterpieces of Nature are around you.

By all means, plant plenty roses.
